ABOUT ME

Enthusiastic Computer Science and Engineering student with a keen interest in software development and emerging technologies. Skilled in Java, C++, SQL, and web technologies, with hands-on experience in academic and personal projects. Strong problem-solving abilities, adaptability, and a willingness to learn make me a valuable addition to any team.

EDUCATION

- | | |
|--|-----------------------|
| • National Engineering College, Kovilpatti (CGPA: 8.48) | B.E. CSE 2023-2027 |
| • Govt. Girls Higher Secondary School, Kovilpatti(87.3%) | Class XII 2021-2022 |
| • KR Saradha Government Higher secondary school, Nalattinuthur (88.6%) | Class X 2019-2020 |

SKILLS

- Languages: C, C++, Java, SQL, JavaScript
- Web: HTML, CSS, React, Node.js, REST APIs
- Backend: Java Spring Boot, MERN Stack
- CS Fundamentals: OOP, DBMS
- Tools: Git, GitHub, VS Code

LANGUAGES

English · Tamil · Malayalam

PERSONALITY

Curious · Determined · Resilient

CERTIFICATIONS

- | | |
|---|---|
| • Responsive Web Design – freeCodeCamp | • Technical English for Engineers – NPTEL |
| • Become a Certified Web Developer – Eduonix | • Software Project Management – NPTEL |
| • Database Management Systems – Infosys Springboard | • Privacy and Security in Online Social Media – NPTEL |

PROJECTS

BusPulse – Smart Bus Arrival Prediction System

2026

- Architected a scalable bus arrival prediction platform for regions without GPS; built real-time ETA engine using Haversine distance, route geometry, and confidence-based prediction models.
- Integrated crowdsourced delay reporting and live route simulation.

DigiTailor- Customised Fashion Delivery System

2025

- Developed full-stack MERN platform with RESTful APIs for order management, authentication, and catalog.
- Built order lifecycle pipeline (stitching → shipping → delivery) with real-time customization and file-upload features; iterative debugging across browser environments

INTERNSHIP

Software Engineering Intern – Infosys Springboard Virtual Internship 6.0

2026

- Built backend modules in Java Spring Boot – implemented RESTful APIs with validation and error handling logic aligned with production standards.
- Applied OOP principles to structure scalable, maintainable service layers

ACHIEVEMENTS

- Solved 2000+ problems on **SkillRack**, demonstrating strong problem-solving consistency
- Solved 150+ problems on **LeetCode**.
- Ranked in the **Top 5%** nationally in Privacy and Security in Online Social Media – NPTEL.
